RAVENTÓS I BLANC

BLANC DE BLANCS 2024

RAVENTÓS I BLANC || The Raventós i Blanc estate, founded in 1497 and passed on through twenty-one generations to the present day, is a global reference for its viticulture methods. The estate, an agricultural organism surrounded by forests, a lake, and two hills that define the microclimate, is a living example of sustainable viticulture. The wines, with their unique character derived from the minerality of our soils and the demanding and respectful viticulture, are a testament to our commitment to quality and sustainability.

CONCA DEL RIU ANOIA - Penedès || In December 2012, Raventós i Blanc left the Cava DO to create a new designation: Conca del Riu Anoia. This small geographical area conveys strict viticultural traditions, the strength of the land, unique indigenous grape varieties, and the characteristics of the soils. Vineyards are farmed organically and biodynamically, and wines are all estate-grown, vintage-specific, and aged for a minimum of 18 months.

BLANC DE BLANCS 2024 ||

BLEND | 50% Xarel·lo, 35% Macabeu, 10% Parellada, 5% Malvasia de Sitges

VINEYARDS | From the plots *La Barbera*, *La Plana*, *El Plat* and *El Viader* which have deep calcareous soils with a sand-rich loamy texture giving freshness and elegance and *El Llac*, a 40 year old plot with marine fossils providing structure and complexity. Biodynamic viticulture.

WINEMAKING | Made in the traditional method. Vinification in stainless steel tanks followed by secondary fermentation in bottle, aged for a minimum of 18 months. Extra Brut.

PRESS | 93 WA | 91 JS | 91 WS

“They call the 2024 Blanc de Blancs the vintage of hope, when the rain returned but a tad late, which was very good for the plants that survived (they lost 30% of the plants in the old vineyards in the preceding two years). This is clean, expressive and Mediterranean and spent 18 months with the lees. It comes from more productive vineyards in lower parts and purchased grapes from the banks of the Anoia River that represent the expression of the zone quite faithfully. The wine is tasty and complex, nuanced and elegant. It is long and rich, with weight, acidity and bitter notes, with everything in balance. It was produced in a good quantity and comes at an affordable price.” - Luis Gutierrez
